## Contour 20 **Black Edition**

Contour 20 **Black Edition**

## Dark star

Top-of-the-range tech meets a 40-year legacy

Contour 20 Black Edition is the apex of 40 years of Contour. We've looked at every component and upgraded it. Every nuance and improved it. And every surface... and made it black.

It's what happens when you take an award-winning classic and give it a radical upgrade: the very best parts, painstaking measurement and testing, and a pursuit of perfection that some people might deem obsessive. (Those people are right.)

You'll get the kind of craftsmanship you just can't help telling your friends about... and a listening experience that demands you sit up and take notice.

It's an investment in sound; an investment in your music. And, frankly, it's pretty damn cool.

Sensitivity	86dB (2.83V/1m)
